HOTEL LIGHTING 2021

About US

The Rajkamal Trading Corporation was established in 1961 in India, when they set up their own factory located at Mumbai. Within a very short span of time, the company emerged as one of the leading manufacturers of an extremely wide range of lighting fixtures that included chandeliers, table lamps, pedestal lamps, wall lamps, recessed lights and custom made fittings.

Through stringent quality control, & with the help of an inhouse design studio, these products became widely acclaimed for their unparalleled design aesthetics and their fail-safe durability.

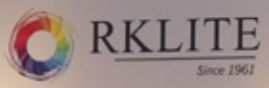

In 1971, the Company started exporting its products in a very major way. From then onward, growth at the Rajkamal Trading Corporation took place at an even faster rate. Today, these products have the pride of place at leading institutions and establishments all over Asia and the Middle East.

Some discerning clients who have always sourced their lighting fixture requirements from the Rajkamal Trading Corporation include the Taj Group of Hotels, The Oberoi Group of Hotels, The Leela Kempinsky Group of Hotels, The Centaur Group of Hotels, Sheraton Hotels, & almost all the leading five-star hotels in India & several in Dubai, Sharjah and Russia.
